

Winter Ecology ✨ Spring 2024

A Field Course at CU's Mountain Research Station
6 Weekends in the Field
*** 3 Credits ***

Meets EBIO's Lab or 4000 Course & ENVS's Application Requirements

- ✧ **Wintertime offers insights into the natural history of organisms & ecosystems not often appreciated during summer visits to the Rockies ✧**
- ✧ **Join us in the mountains to study cold-season processes that shape alpine/subalpine ecological dynamics year-round ✧**

Instructor: Dr. Tim Kittel (INSTAAR) & Derek Sweeney (EBIO)

Dates & Times – 17 Jan – 2 Mar 2024 (specific dates online)

- **Mountain Research Station – 6 weekends**
Times: **Sat** – 8:30a-5p & 7:30-8.30p, **Sun** – 8:30a-5p
- **Boulder Main Campus – Lecture Weds 5-6p – 6 meetings**

Topics: Climate, Snowpack, Vegetation dynamics
Soil ecology, Mammalogy, Ornithology, & Limnology

Format: Field & lab exercises – Individual field project
Evening guest lectures

- ❖ 3 Credits EBIO 4100 or 5100
- ❖ Tuition & Fees: \$ 1950.
 - ☞ includes overnight lodging at the Science Lodge
 - ☞ meals arranged separately
- ❖ Prerequisites: 1 year of general bio or environmental science
